In attendance: Pratik Thanki, Ruta Puodziunaite, Ovuokerie Okelezo, Svet Anastasov, Peter Orisadipe

Start: 18:30

End: 19:22

Minutes:

Assigned roles for this week (Scrum 2/Week 3):

| | Scrum 2/Week 3 | Scrum 3/Week 4 |
|-----------------------|---|--|
| Product Owner: | Ovuokerie Okelezo | Pratik Thanki |
| Scrum Master: | Svet Anastasov | Ruta Puodziunaite |
| Scrum Team: | Ruta Puodziunaite, Pratik Thanki, Peter Orisadipe | Svet Anastasov, Ovuokerie Okelezo, Peter Orisadipe |

- Delivered on the Scrum 1 goals – some further suggestions are to do little bits of work earlier on in the week in order to address any blockers early on in the sprint.

Some suggestions:

- Simplify the workflow on the user side.
- Require as little user input as possible, look into working on a user interface.
- Select options instead of needing to type all the values, account names etc.

Development goals for Scrum 2: Tickets will be moved to the 'Sprint Goals'.

Questions:

What have I done this week?

What problems have I encountered?

Have I solved them and how?

Pratik has addressed these question in the Wiki page. The rest of the team will contribute their thoughts on Q2.
